Frequencies for Life

Welcome to the World of Healy!

Healy is a small but very versatile device (controlled by your Apple or Android smartphone) that uses microcurrent for local treatment of pain and Individualized Microcurrent Frequency (IMF) programs to harmonize your Bioenergetic Field for many important areas of life.

Freedom From Pain

Even the slightest pain, if you have to endure it long enough, can make everyday life unbearable. Healy uses microcurrents on different areas of your body to relieve and manage pain. It even relieves muscle strains and soreness from exercise or work around the house. All the Healy Editions contain its pain relieving microcurrent applications.

Healthy Cells and Healthy Bodies

A body consists of organs, the organs consist of cells and every cell, just like the whole human organism, has its own transfer of molecules, energy and information. The Bioenergetic Field of the body refers to the communication between the cells which is largely based on electromagnetic frequencies. Therefore, the Healy applications are designed to harmonize the communication of the cells to the Bioenergetic Field by using Individualized Microcurrent Frequencies (IMF).

Individualized Microcurrent Frequency (IMF) Program Pages

We have arranged the application areas for the harmonization of your Bioenergetic Field into different program pages. Each program page contains a list of Individualized Microcurrent Frequency (IMF) programs.

Healy applies Individualized Microcurrent Frequency (IMF) programs for the harmonization of your Bioenergetic Field (BEF)*.
